## MOVING FORWARD

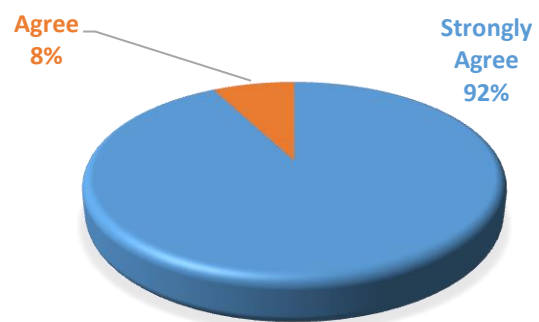

There is a clear timetable in place for the project

All decisions were made and clarified to be placed in the Minutes of the meeting.

I understand my role in the project and the tasks assigned to me

### 1. What do you consider to be the main strength of this project meeting?

- the exhibition of the large amount of work done so far
- Cooperation, coordination, determination
- It has made a great contribution to the primary health care services, which is one of the most important health services provided to the Syrian guests in our country, and has increased awareness.
- Providing the right approach to hereditary blood diseases for immigrants with the cooperation of project partners with different dynamics and problems
- Screening of all couples who want to have children and not coming to the world with a sick person
- Developing partnerships between partners
- Health directorates in provinces to focus on the importance of the issue
- Zeroing of thalassemia (disease/carrier) in Turkey, hence its contribution to the economy
- Participation of the Ministry of Health in the project for the training of physicians working in immigrant health centers in our country
- I'm in favor of the continuation of the project
- It is important that the project coordinators work devotedly and have a good command of the subject, and that the participating provinces are chosen correctly in terms of project effectiveness.
- interest of participants, always of ideas and for future activities
- it was a productive meeting

### 2. Can you see any weak points or problem areas for the project that should be tackled as soon as possible?

- No
- the end of the project has been reached, the problem area is not seen
- measures should be continued without easing
- dissemination of these studies in all provinces like the provinces in this project and accelerating the zeroing of child birth with thalassemia
- Plans and programs should be made for physicians working in immigrant health centers to attend refresher training at regular intervals and to train new recruits.
- the project is appropriate as decisions are made on time
- I think overall the project is useful and has no weak points
- absolutely not
- perpetual migration of immigrants

### 3. What suggestions can you make for improving the working procedures of the partners' meetings and measures to take for solving the problem(s)?

- We would like to thank all our teachers, especially our teacher Duran, and our friends working in the field.
- I have no suggestion
- Efforts to increase screening
- I favor the continuation of communication channels
- To continue the activities of Equality Plus.

### 4. Are there any particular items in particular that you wish to have placed on the Agenda of the next Transnational Project Meeting?

- No.
- I think we should focus on rare diseases in our country.
- The results of the scans, the study of the efficiency of the trainings
- There may be projects related to genetic diseases.
- There may be studies to increase health literacy for the reproductive health of Syrian women of reproductive age.
- This is the last, but I hope to continue for future.

**5. Do you have any observations, comments or recommendations that may be beneficial in progressing the project?**

- No.
- The project is successfully carried out
- Continuing to work with Educational Material on the subject
- Maintaining the communication of project provinces and project partners (Italy, Spain, Türkiye) (as Ministry and provinces)
- We have already existed in the present project. congratulations all
